

## Office Report

As always this has been another full year. I have completely updated all of the Safe Parent files and all Safe Parent houses have window signs. The Area Chairmen have received their new and improved lists in the mail. I am currently working on creating a new data base for the Auto Dialler.

I had several meeting in the past year along with Dawn.

- We met with Minister Rona Ambrose last spring and discussed Safe Parent and what we do for Edmonton.
- We went to a half day seminar on colour spectrums. This has helped us deal with and understand the public better.
- Last fall Safe Parent was approached by the city and asked us to attend an Edmonton Planning meeting. It was a public input on what changes would be needed in Edmonton to create a safe and creative environment in our neighbourhoods.
- Dawn and I met several times with the Boys and Girls club and are in the process of making the Associated Members. That means that the Safe Parent sign will be displayed in their safe houses while there is someone there and every one working in the safe house will be Safe Parents.
- Constable Dale Brennais accompanied me to Northlands and we had a meeting about Safe Parent House during the Capital Ex. We will have a wonderful space this year and will be completely accessible by the public.
- The future plans are to work with SAGE and continue the fund raisers.
