

Safe Parent is Gong Green!!

We are going green and doing our bit to save the environment. Safe Parent is using two (2) different approaches to do this.

The first thing we are doing is **discontinuing the Newsmagazine**. This issue will be the last one printed. All further issues will be posted on the web page for your convenience. Please check [www.edmsafeparent.com](http://www.edmsafeparent.com) at regular intervals and find out what we are doing and if you can help any way. We will be posting all kinds of crime prevention information as well as keep you apprised of Safe Parent business.

The second way is of course our recycling fundraiser. We are offering businesses, day cares and community halls bottle recycle bins. There will no work or inconvenience to you. A Safe Parent volunteer will deliver the bin(s) and pick up any recyclables at regular intervals. This is a win-win situation. You don't have to worry about what to do with all the bottles and we receive the proceeds which are completely put back into the Program.
